Dal 1967 solo MADE IN ITALY 

CULTURA, TRADIZIONE, QUALITÀ

Dal 1967 creiamo lampade dall'elevato standard qualitativo, una tradizione produttiva che si è sviluppata costantemente nel tempo. Una selezione rigorosa dei materiali, una sensibilità ambientale, una progettazione all'avanguardia, un'accurata lavorazione ed una costante cura del dettaglio fanno sì che il "fatto a mano" sia al contempo patrimonio culturale dell'azienda ed elemento distintivo delle nostre creazioni.

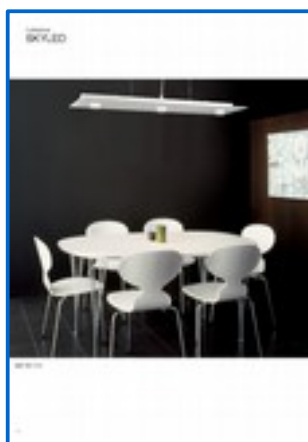

IDEARE, PROGETTARE, CREARE

Ogni creazione è il risultato di processo produttivo in costante sviluppo. Trasformare un'idea passando dalla matita del progettista, attraverso i calibri del modellista, fino alle attrezzature per la produzione finale, rende ogni prodotto unico ed intrinsecamente caratterizzato dall'impegno e dalla passione di professionisti della luce.

Granfo Lampadari "dal 1967 solo Made in Italy"

Tutti i prodotti della
Granfo Lampadari snc
sono depositati.

Doppio isolamento e/o rinforzato in ogni parte e senza dispositivi di messa a terra.

Double insulation and/or reinforced insulation in every part and without ground devices.

Double isolement et/ou isolement renforcé de toutes les composantes et sans dispositif de mise à la terre.

Doppelte Isolierung, bzw. Verstärkte Isolierung jedes Teiles, ohne Vorrichtung für Erdung.

Doble aislamiento Y/O aislamiento reforzado in cada parte i sin toma a tierra.

CLASSI DI ISOLAMENTO

Ai fini della protezione elettrica, gli apparecchi sono classificati in base ad indicazioni CEE.

Classe I

Isolamento funzionale in ogni parte, provvisto di messa a terra, o con morsetto se fisso o con conduttore e relativa spina con contatto di terra, se mobile.

Classe II

Doppio isolamento e/o rinforzato in ogni parte e senza dispositivi di messa a terra.

Classe III

Apparecchio in cui la protezione contro la scossa elettrica si basa sull'alimentazione a bassissima tensione di sicurezza e in cui non si producono tensioni superiori alla stessa.

Lampade che non necessitano di schermo protettivo.

CLASSES OF INSULATION

For electric production purposes the fixtures are classified in accordance with EEC guidelines.

Class I

Functional insulation in every part and ground terminal or clamp in the unit is fixed, or with conductor and relative plug with ground contact if the unit is mobile.

Class II

Double insulation and/or reinforced insulation in every part and without ground devices.

Class III

Appliance in with protection against electrical shock is guaranteed by the extremely low-voltage power supply and which does not produce higher voltages.

These lamp do not need shield.

CLASSES D'ISOLEMENT

Concernant la protection électrique, les appareils sont classés selon les indicateurs CEE.

Classe I

Isolément fonctionnel de toutes les composantes, avec mise à la terre ou borne si l'appareil est fixe; avec conducteur et fiche avec contact à la terre si l'appareil est mobile.

Classe II

Double isolement et/ou isolement renforcé de toutes les composantes et sans dispositif de mise à la terre.

Classe III

Appareil avec protection contre les décharges électriques basée sur l'alimentation à une tension de sécurité très basse et sans possibilité de production de tensions supérieures.

Ecran de protection pas nécessaire.

ISOLIERUNGSKLASSEN

Die Geräte sind hinsichtlich der elektrischen Absicherung aufgrund der EWG-Normen klassifiziert.

Klasse I

Isolierung jedes Bestandteiles mit Erdung, bzw. Mit Klemme falls festmontiert oder Drahtleitung und SchukoStecker falls beweglich.

Klasse II

Doppelte Isolierung, bzw. Verstärkte Isolierung jedes Teiles, ohne Vorrichtung für Erdung.

Klasse III

Zum Schutz vor elektrischen Schlägen mit Kleinspannung gespeistes Gerät, in dem keine über dem Speisewert liegendes Spannung erzeugt werden.

Keine Blendschutz benötigt.

CLASE DE AISLAMIENTO

Para la protección eléctrica los aparatos se clasifican en base a las indicaciones de la CEE.

Clase I

Aislamiento funcional in cada parte provista de toma a tierra o con pinza si fijada, con cable y terminal con contacto de tierra si móvil.

Clase II

Doble aislamiento Y/O aislamiento reforzado in cada parte i sin toma a tierra.

Clase III

Aparado en el qual la protección contra la descarga eléctrica se debe a la alimentación a muy baja tensión.

No necesita pantalla de protección.
